

THE PROGRAM

Alternacare Inc. has been Montreal's pre-eminent health services provider since 1986 supplying a broad range of staffing services to hospitals, CLSC's, individuals at home and corporate clients.

With this in-depth experience in the healthcare sector, we know how difficult it is to find qualified and compassionate caregivers and have, therefore, decided to put our knowledge to work by developing and offering our own nurses' aide course.

This course will be of interest to those individuals wishing to pursue a career in the nursing support area. The student will learn how to recognize and meet the needs of the ill, dependent and chronically ill patient.

The graduating student will not only become part of the healthcare team but will also benefit from the acquired knowledge concerning disease prevention and health promotion.

COURSE CONTENT

Part I: Theory 78 hours (13 weeks)

The following subjects are covered in the classroom:

- Duties, Ethics & Standards
- Anatomy & Physiology of Body Systems
- Basics of Bedside Care
- The Ageing Process

Alternacare is a dynamic Quebec-owned organization, made up of highly skilled, dependable and caring health and social services professionals. We have been serving the Montreal community since 1986, providing a variety of healthcare services:

- Home Health Care
- Home Support
- Private-duty Nursing
- Palliative Care
- Respite Care
- Homemaking

At Alternacare, we have always placed the emphasis on the human element of healthcare. Our philosophy is one of professionalism, sensitivity and total commitment to every single patient.

The Alternacare Team is renowned for its dedication to excellence. Every staff member is thoroughly screened and professionally trained to give assistance – and comfort – to our diverse clientele.
