HEALTH CARE PROFESSIONALS

When you have a gap to fill, we've got you covered.

Alternacare is available around the clock to provide temporary personnel when your staff requires extra help. With a team of dedicated recruiters and a sophisticated scheduling system, we can mobilize qualified health care professionals when and where you need them.

PRIVATE DUTY & SHARED CARE

Personal attention makes all the difference.

We provide caring, one-on-one support. Our professionals are available from 3 to 24 hours a day and can tend to multiple individuals at the same facility in one shift. Creating a customized care plan, we match individuals with regular care providers who suit their needs, preferences, budgets, and schedule.

PATIENT ESCORT SERVICES

Don't be left short-handed when residents have off-site appointments.

Rather than dispatching a member of your permanent staff, call on an Alternacare attendant to accompany clients to external locations. Our care givers are prepared to help clients transfer between vehicles and wheelchairs/walkers and will ensure their wellbeing throughout the visit.

SUPPORT STAFF

We're not just health care!

As a member of the Quantum Group, which offers recruitment services in several distinct and specialized divisions, we have decades of experience solving your staffing challenges. Let us assist you with the recruitment of your administrative personnel, front desk staff, accounting personnel, and kitchen staff.
